1. Product Overview

1.1 Introduction

HospMate is a comprehensive Hospital Information Management System (HIMS) or ERP software designed to automate the functional, clinical, and administrative operations of hospitals and healthcare facilities. Developed by Excellence ICT, it serves as a central platform for managing patient data, billing, and internal workflows.

It is primarily focused on enhancing efficiency and reducing labor costs in healthcare facilities, with a strong presence in the Bangladeshi healthcare IT market.

1.2 Application:

HospMate can be implemented in all types of healthcare organizations namely:

- ✓ General/Specialized Hospital
- ✓ Clinic
- ✓ Healthcare Center
- ✓ Reference Laboratory
- ✓ Clinical Research Laboratory
- ✓ Doctor’s Chamber
- ✓ Pharmacy
- ✓ Optics Shop

1.3 Special Features:

- **Barcode and QR Code** enabled. Barcode reading in all functional points
- **SMS** Integrated for **50+ events**
- Extra-ordinary **Queue Management** module with callout in Bengali and many other features
- **Integrated Inventory and Accounts**
- Wide range of **LIS Integration** (20+ Brands and 150+ Models)
- Integrated Reagent Management
- **PACS** Connectivity, Server and Viewer
- Online **Patient Portal**
- Mobile Application for both android and IOS

<ul style="list-style-type: none"> • Wide range of in-built MIS reports with Direct Print, save as Excel / PDF / RTF / E-Mail and Drill-down facility
<ul style="list-style-type: none"> • Dynamic Printer selection for different types of report
<ul style="list-style-type: none"> • Patient EMR with ID card and document storage
<ul style="list-style-type: none"> • Less than 10 seconds to make a bill !
<ul style="list-style-type: none"> • Accurate, precise, smooth and fast
<ul style="list-style-type: none"> • Generic Look and Feel with keyboard shortcuts
<ul style="list-style-type: none"> • Comprehensive searching and sorting facility
<ul style="list-style-type: none"> • Strong Security mechanism with detail Audit Trail
<ul style="list-style-type: none"> • Very less customization required. Therefore, Quick installation and go live
<ul style="list-style-type: none"> • Automatic and simultaneous data backup in several media locations and types
<ul style="list-style-type: none"> • Continuous R&D with new thoughts and technologies

1.4 Benefits for different user groups:

 <p>Patient Service</p>	<ul style="list-style-type: none"> ❖ Barcode enabled in all functional points makes patient service process very fast and accurate ❖ Patient's photograph can be taken and printed in registration form instantly within a blink of eye; no-need of hardcopy scan, browse and tagging. ❖ Patient's reference documents (such as prescription, old reports, digital files, etc.) can be captured and stored in patient's file very easily. ❖ High-quality Patient's Registration Card can be printed instantly on PVC media
 <p>User Experience (UX)</p>	<ul style="list-style-type: none"> ❖ Automatic alerts based on user's role ❖ Very smooth operations with a high-level of user experience. ❖ Generic look and feel to ensure user comfort at highest level ❖ Font and Color (Graphics) are very soothing for long working hours ❖ Keyboard shortcuts for common functions ❖ Built-in Calendar next to all date fields for faster user-input ❖ Report drill-down facility with parameter memorization enables quick in-depth analysis. ❖ All necessary reports are bundled. Yet, customized per requirement. ❖ Direct printing with automatic printer-selection. ❖ Faster Searching and Sorting in all forms
 <p>Patient Experience</p>	<ul style="list-style-type: none"> ❖ On Registration, automatic SMS sent to patient's mobile containing the registration ID ❖ Automatic SMS sent to patient's guardian/attendant on IP Admission, Deposit, Bed Transfer and Discharge ❖ Mobile Apps to search for available tests/services, doctor's list, appointment, diagnosis result, etc. ❖ Web module to search for available tests/services, doctor's list, appointment, diagnosis result, etc.

 <p>Top Management</p>	<ul style="list-style-type: none"> ❖ Automatic SMS and/or E-mail on daily Revenue ❖ Reports designed on real-life business perspectives & analytical thoughts ❖ All necessary MIS reports are bundled. Yet, customized per requirement. ❖ MIS reports run in full-screen mode, no need to resize ❖ Reports with drill-down facility enables quick in-depth analysis. No need to run each report separately with putting the parameters repeatedly ❖ Reports can be viewed, directly printed, saved to MS Excel, PDF, MS Word or sent via e-mail ❖ Mobile App to view MIS reports
 <p>IT Management</p>	<ul style="list-style-type: none"> ❖ Multi-branch Distributed OLTP system for local or cloud deployment ❖ Daily automated Data Backup & Quick Restore ❖ Self-Service automated Database tuning, system never slows down ❖ System health monitoring capacity ❖ All errors are logged for easier debugging ❖ All activities are audited for accountability ❖ Very strong software security & privilege mechanism ❖ Force Logout users on suspicious activities or maintenance purpose ❖ Full features of world's no. 1 ORACLE database ❖ Easy to deploy and maintain
 <p>Support Service</p>	<ul style="list-style-type: none"> ❖ Spontaneous support 24 / 7 via remote login ❖ Any issues resolved within 15 minutes of addressing by our expert service team ❖ All reports are customized per customer's requirements. ❖ Developed and supported by certified and industry's top-notch professionals with years of intensive domain experience ❖ Continuous R&D on quality improvement and feature enhancement to enrich with latest technologies and international standards

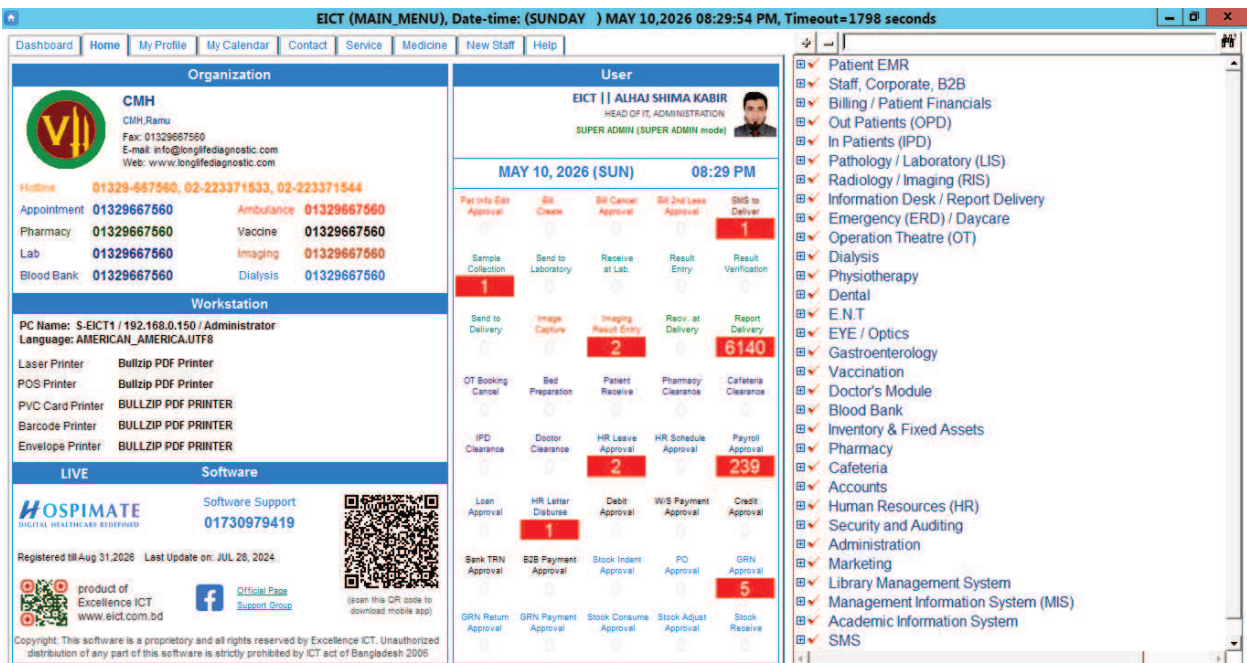

1.5 Risk Management (Backup / Recovery):

As we believe that data is an asset, we ensure high-level security with multi-layer protection.

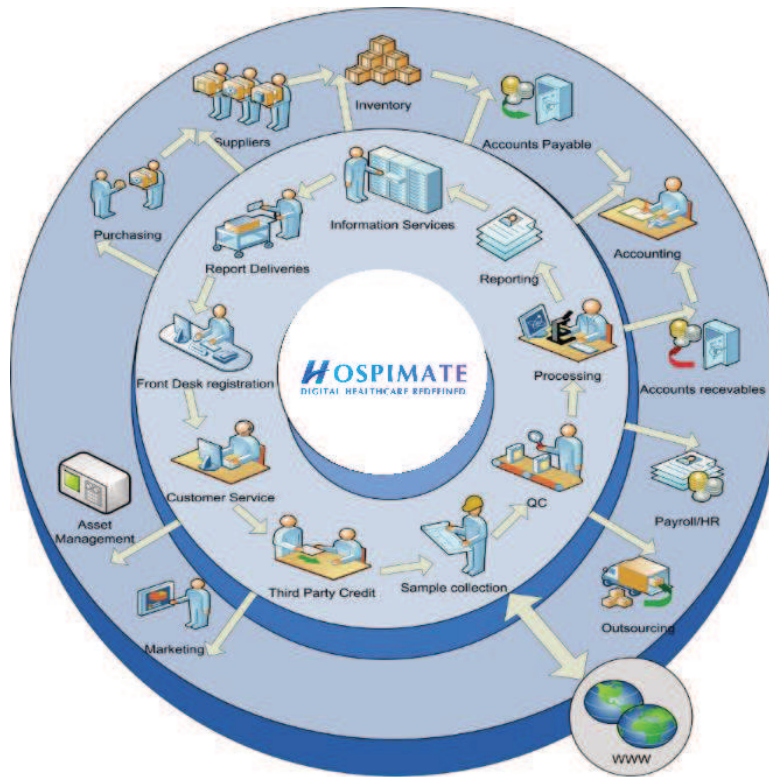

1. Daily, automated and Full Database Backup in several media locations (backup server, shared folder location in LAN, removable HDD, google drive, etc.)
2. In case of database failure, data will be restored within 30 minutes from backup files.
3. We ensure **99.9%** uptime/availability

1.6 Support Service:

- At the time of Implementation, training will be provided to all specially to IT personnel's and after live any further training session costing will be set upon mutual agreement.
- Client must provide online access to system to have instant support. In serious disaster of system physical presence of Excellence ICT's Professional will take less than 2 hours.
- Client will not get any access in database for security. If client forcefully want to have database access, then Excellence ICT will not be responsible for data and database.
- Client must ensure physical security of database, application, host connection, SMS servers & smooth network.
- Yearly Downtime of System **24 Hours** for any database or system maintenance which will take or place by approval of respective client.

2. Modules, Functions & Features

1. Patient EMR Management	17. Vaccination Management
2. Staff, Corporate and B2B	18. Doctor's Module
3. Billing / Patient Financials	19. Blood Bank Management
4. Pathology / Laboratory Management	20. Inventory & Fixed Asset Management
5. Radiology / Imaging Management	21. Pharmacy Management
6. Information Desk	22. Cafeteria Management
7. Emergency / Daycare Management	23. Transport Management
8. Out Patient / OPD Management	24. Accounts Management
9. In Patient / IPD Management	25. Human Resources / HR Management
10. Operation Theatre / OT Management	26. Security & auditing
11. Dialysis Management	27. Administration
12. Physiotherapy Management	28. Academic Management
13. Gastroenterology Management	29. Library Management
14. Dental Management	30. Marketing Management
15. ENT Management	31. SMS Management
16. Optics Management	32. Management Information System (MIS)

	<p>2.1 Patient EMR (Electronic Medical Record) Management <i>Aggregates all history of a patient in a single place so that it can be shared among different modules such as doctor's prescription, IPD, etc.</i></p>
<p>Actions</p>	<ul style="list-style-type: none"> ❖ Patient Registration ❖ Patient Medical Records ❖ Patient Registration Card Print
<p>Reports</p>	<ul style="list-style-type: none"> ❖ Date-wise Patient Registration ❖ Blank Registration Form ❖ Patient Sticker
<p>Features</p>	<ul style="list-style-type: none"> ❖ Very fast registration ❖ Separate forms for Quick & Detail registration ❖ One-time registration, all history preserved in EMR against the registration number ❖ Standard Registration No. format includes Branch ID, Year, Month and Sequence
	<p>2.2 Staff, Corporate (CC) and B2B Management <i>Manages Staff, Corporate (CC) and B2B operations such as billing, discount, payment, due collection, policy setup, etc.</i></p>
<p>Actions</p>	<ul style="list-style-type: none"> ❖ B2B Information Setup ❖ B2B Payment ❖ CC Discount and Due Policy Setup ❖ CC Information Setup ❖ CC Discount & Due Policy Setup ❖ CC Due Collection
<p>Reports</p>	<ul style="list-style-type: none"> ❖ B2B List ❖ B2B Order Summary & Details ❖ B2B Payment Summary & Details ❖ B2B Rate Chart ❖ CC List ❖ CC Staff List ❖ CC Discount & Due Policy ❖ CC Sales Summary & Details ❖ CC Current Due Summary & Details
<p>Features</p>	<ul style="list-style-type: none"> ❖ Discount & Due Policy Management ❖ Bulk collection of Due bills at month end ❖ Easy tracking of Order, Sales & Payments
	<p>2.3 Billing / Patient Financial Management <i>Manages all operations of cash counter & billing departments such as invoicing, due collection, discount, package billing, refund, etc.</i></p>
<p>Actions</p>	<ul style="list-style-type: none"> ❖ OPD Ticket ❖ OPD Diagnostic Billing ❖ OPD Audio vestibular Billing ❖ OPD ENT Billing ❖ OPD Health Checkup / GAMCA Billing ❖ OPD Billing with Markup ❖ IPD Invoicing ❖ IPD Business Office ❖ Advance Receive Billing

	<ul style="list-style-type: none"> ❖ Advance Refund ❖ Registration Card Billing ❖ Bill/Item Cancel ❖ Bill Edit ❖ Bill Edit (Advanced) ❖ Bill View and Re-print ❖ Bill/Item Cancel Approval ❖ Due Collection ❖ Due Collection with Discount ❖ Discount on PAID Bills ❖ Inventory Functions
Reports	<ul style="list-style-type: none"> ❖ My Collection ❖ Current Due Bills ❖ IPD Provisional & Final Bill ❖ IPD Doctor's Bill ❖ IPD Pharmacy Bill ❖ IPD Cafeteria Bill ❖ IPD Current Patient Bill Status ❖ IPD Patient Bill Summary & Details ❖ OPD Ticket Fee Collection Summary & Detail (Doctor, User, Dept. wise)
Features	<ul style="list-style-type: none"> ❖ Very fast, accurate and simple billing with quick Item searching capacity ❖ Standard Invoice No. format includes Branch ID, Year, Month and Sequence ❖ Documents (Patients Photograph, Prescription, Reports, Images, Discount authorization/request reference, etc.) scan and attachment ❖ Billing of several patients simultaneously to serve the queue properly ❖ Easily manage IPD patient's Financials. ❖ Post-voucher activities are secured by access privilege and timeline. ❖ Services in progress cannot be cancelled from bills unless authorized ❖ Add referral information at runtime without leaving the billing form ❖ General/Special Discount facility, Package billing facility ❖ Report delivery date and time auto-calculation based on Urgency ❖ Consumable items identified and added to bill automatically ❖ Suggests items for recurring patients based on most recent bill ❖ Quick navigation between different billing screens ❖ Bill/Invoice is sent directly to printer ❖ Cashiers instantly views his/her Transaction Report ❖ Various Payment mode (Cash, Card, Cheque, Advance Adjust) facility ❖ Tagging the Doctor/Physiotherapist/service provider during billing ❖ SMS to patient's attendant/payee's mobile with payment and due info
	<p>2.4 Pathology / Laboratory Management <i>Manages all operations of Pathology department in a workflow architecture including bidirectional LIS integration of more than 100 analyzer models</i></p>
Actions	<ul style="list-style-type: none"> ❖ Analyzer Settings ❖ Antibiotic, Organism, Report Header setup (Master) ❖ Report Parameter setup ❖ Update Unit, Reference Value ❖ LIS Connectivity Status

	<ul style="list-style-type: none"> ❖ Reagent Consumption Entry ❖ Sample Collection ❖ Result Entry ❖ Report Finalization ❖ Inventory Functions
Reports	<ul style="list-style-type: none"> ❖ Machine-wise parameters ❖ Day-wise Service Count ❖ Result Analysis ❖ TAT Report
Features	<ul style="list-style-type: none"> ❖ Workflow based (Sample collection > send to lab > receive at lab > result entry > result verify > send to delivery > receive at delivery > report delivery) ❖ Worklist-based operations enable users to manage their work quickly and easily ❖ Less Turn-around-time (TAT) ❖ Comprehensive bidirectional LIS integration with 100+ machines ❖ Accurate result ❖ No mismatch between patient and sample ❖ Reagent & Stationary Requisition, Receive, Consumption, Inventory –all built-in ❖ Integration with QueueMate (Queue Management System) for sample Collection
	<p>2.5 Radiology / Imaging Management <i>Manages all operations of Radiology department in a workflow architecture including bidirectional RIS integration of more than 20 modality models</i></p>
Actions	<ul style="list-style-type: none"> ❖ Report Templates ❖ Image Capture ❖ Reporting ❖ Inventory Functions
Reports	<ul style="list-style-type: none"> ❖ Day-wise Service Count ❖ Result Analysis ❖ TAT Report
Features	<ul style="list-style-type: none"> ❖ Workflow based (Image Capture > send to lab > receive at lab > result entry > result verify > send to delivery > receive at delivery > report delivery) ❖ Worklist-based operations enable users to manage their work quickly and easily ❖ Templates can be set up for different radiologists for faster reporting ❖ Customized Templates Multi-language support ❖ Integration with QueueMate (Queue Management System) for Image Capture
	<p>2.6 Information Desk / Report Delivery <i>Manages all operations of Information Desk including Report Delivery</i></p>
Actions	<ul style="list-style-type: none"> ❖ Information Searching Panel ❖ Report Delivery ❖ Bed booking ❖ Appointment Entry ❖ Inventory Functions
Features	<ul style="list-style-type: none"> ❖ Quick searching, sorting capability ❖ Faster report delivery ❖ Integration with QueueMate (Queue Management System) for Report Delivery

	<p>2.7 Emergency / Daycare Management <i>Manages all operations of Emergency / daycare department</i></p>
<p>Actions</p>	<ul style="list-style-type: none"> ❖ Bed Setup ❖ Admission ❖ Admission Update ❖ Bed Transfer ❖ Service Requisition ❖ Medicine Requisition ❖ Medicine Return ❖ Discharge Summary Entry ❖ Discharge ❖ Nurse station ❖ Inventory Functions
<p>Reports</p>	<ul style="list-style-type: none"> ❖ Blank Admission Form ❖ Bed Information
<p>Features</p>	<ul style="list-style-type: none"> ❖ Clearance for admission, transfer, discharge ❖ Quick admission, service, transfer and discharge ❖ Patient's guardian gets automatic SMS on Admission, Transfer and Discharge
	<p>2.8 Out Patient / OPD Management <i>Manages all operations of Outdoor department</i></p>
<p>Actions</p>	<ul style="list-style-type: none"> ❖ Doctor Scheduling ❖ Appointment ❖ Inventory Functions
<p>Reports</p>	<ul style="list-style-type: none"> ❖ Consultant List ❖ Consultation Summary ❖ Consultation Detail ❖ Fee Collection Summary ❖ Fee Collection Detail
<p>Features</p>	<ul style="list-style-type: none"> ❖ Send SMS to consultant ❖ Patient gets automatic SMS confirmation on appointment ❖ Integration with QueueMate (Queue Management System)
	<p>2.9 In Patient / IPD Management <i>Manages all operations of In-Patient department</i></p>
<p>Actions</p>	<ul style="list-style-type: none"> ❖ Bed Setup ❖ Admission ❖ Admission Update ❖ Bed Transfer ❖ Service Requisition ❖ Medicine Requisition ❖ Medicine Return ❖ Discharge Summary Entry ❖ Discharge ❖ Bill Entry ❖ Inventory Functions
<p>Reports</p>	<ul style="list-style-type: none"> ❖ Blank Admission Form ❖ Bed Information

Features	<ul style="list-style-type: none"> ❖ Clearance for admission, transfer, discharge ❖ Quick admission, service, transfer and discharge ❖ Patient's guardian gets automatic SMS on Admission, Transfer and Discharge
	<p>2.10 Operation Theatre / OT Management <i>Manages all operations of Operation Theatres</i></p>
Actions	<ul style="list-style-type: none"> ❖ OT Setup ❖ Booking ❖ Booking Cancel ❖ Booking Cancel Approval ❖ Booking Edit ❖ Nurse Station ❖ OT Summary Entry ❖ OT Bill Entry ❖ Inventory Functions
Reports	<ul style="list-style-type: none"> ❖ OT Booking Log ❖ OT Booking Cancel Log ❖ OT Revenue ❖ OT Summary ❖ Surgery Checklist ❖ OT Nurse Station
Features	<ul style="list-style-type: none"> ❖ Simpler OT Management ❖ Clearance for transfer ❖ Notification to OT nurses to prepare the designated OTs
	<p>2.11 Dialysis Management <i>Manages all operations of Dialysis department</i></p>
Actions	<ul style="list-style-type: none"> ❖ Modality Booking ❖ Modality Booking Cancel ❖ Modality Booking Cancel Approval ❖ Modality Booking Edit ❖ Nurse Station ❖ Patient Receive ❖ Dialysis Summary Entry ❖ Dialysis Bill Entry ❖ Inventory Functions
Reports	<ul style="list-style-type: none"> ❖ Treatment Record
Features	<ul style="list-style-type: none"> ❖ Simpler dialysis Management ❖ View pathology test results once verified ❖ Clearance for transfer ❖ Notification to nurses to prepare the modality
	<p>2.12 Physiotherapy Management <i>Manages all operations of Physiotherapy department</i></p>
Actions	<ul style="list-style-type: none"> ❖ Patient Analysis ❖ Treatment Reporting ❖ Update Treatment Record ❖ Treatment Summary

	<ul style="list-style-type: none"> ❖ Bill Management ❖ Inventory Functions

5. Case Study

“ Streamlining complex operations in Sher-e-Bangla Medical College Hospital Barishal - one of the most crowded government hospital in Bangladesh ”

Background:

The hospital administration manages the complex operations which requires smooth collaboration and precise information sharing among all groups involved. The main challenge they faced was ensuring every employee an immediate, consolidated access to the necessary, role-specific operational data required for a productive workday. The goal was to unify disparate informative channels into a single, modern, and high-performance digital tool to improve synchronization and overall hospital operational smoothness.

Our solution:

Excellence ICT developed HospiMate ERP, a full-featured digital platform. It serves as a central information hub, providing the workforce with instant access to vital operational intelligence through digitized tools.

Our Approach:

EXCELLENCE ICT Crafting solutions with excellence

Address: 92/B, Shukrabad, Dhaka.

E-mail: info@eict.com.bd, Tel: +88 01720122203

The way we implemented the solution focused on creating a resilient and scalable technical architecture capable of handling the high volume and diversity of data required for hospital operations.

Current Scenario:

Currently all the operations are carried out by HOSPIMATE. No tasks are done manually.

Success Rate:

98 %

Success Factors:

- Highly competent software solution
- Team collaboration on requirement collection
- Random customization
- Adequate Training
- User Feedback
- Spot revisions and update
- Phase-wise Rollout
- Proper infrastructural development support from client
- Tremendous cooperation from the user-groups

Issues Resolved:

- Long patient queues
- Time-consuming manual billing tasks
- Inadequate information delivered to patients about the service locations and time
- Fraud activities
- Data collection and Input errors in manual process
- 20-30% Repetitions of sample collection
- 20-25% errors in Lab Reports
- Time-consuming lab reporting caused unnecessary delay in report delivery
- Mismatch in lab workflow (sample collection > report preparation > dispatch > delivery)
- Anomalies in Purchase-Payment process
- Anomalies in Sales-Return process
- Anomalies in Stock IN-OUT-Adjustment process
- Unsynchronized stock status
- Loss of stock on inter-department indents

6. Remarkable Clients

More than **35** hospitals & **100** diagnostic centers and other **115** clinical organizations are using HospiMate nationwide. Below are some of them-

	<p>Organization: Sher-e-Bangla Medical College Hospital Type: Government Medical College & Hospital Location: Barishal Implementation Year: 2025 Modules: OPD Ticket, IPD Ticket, LIS (20 Analyzers), MIS, QueueMate, Pharmacy, Inventory, HRM, Website.</p>

	<p>Organization: Barak PRP Medical Center Type: Private Medical Center Location: Dhanmondi, Dhaka Implementation Year: 2023 Modules: OPD, IPD, Pharmacy, HRM, Accounts, MIS, Marketing</p>
	<p>Organization: DG Lab Type: Private Diagnostic Center Location: Kishoreganj Sadar, Kishoreganj Implementation Year: 2022 Modules: OPD, LIS, HRM, Accounts, MIS, Marketing</p>
	<p>Organization: Onushu Physio Type: Private Physiotherapy Center Location: Dhanmondi, Dhaka Implementation Year: 2026 Modules: Billing, Physio Management, HRM, Accounts, MIS, Marketing</p>
	<p>Organization: Care Tech Diagnostic Center Type: Private Diagnostic Center Location: Green Road, Dhaka Implementation Year: 2026 Modules: OPD, LIS, HRM, Accounts, MIS, Marketing</p>

7. Client Testimonials / Feedback

WE ARE VERY EXCITED TO SEE THEIR HAPPINESS

BRIG. GEN. DR. A. K. M. MOSHIUL MUNIR

DIRECTOR | SHER-E-BANGLA MEDICAL COLLEGE & HOSPITAL, SARISHAL

"We are excited to accomplish a total digital transformation in our organization. Many thanks to the team for their outstanding effort."

DR. MD ABU KAUSAR

MANAGING DIRECTOR | LONG LIFE HOSPITAL LTD. AND LONG LIFE DIAGNOSTIC CENTER LTD.

"HospilMate ERP has completely transformed our daily operations. The synchronization is seamless."

ADV. TUSHAR AHMED RIAD

DIRECTOR, HUMAN RESOURCES | PRESIDENT ABDUL HAMID MEDICAL COLLEGE & HOSPITAL, KISHOREGANJ

"We had a very old website which was lacking modern look. We hired them and they did an outstanding makeover. They are highly professional."

PROF. DR. ZILLUR RAHMAN

MANAGING DIRECTOR | BANGLADESH ENT HOSPITAL, SOBHANSAG, DHAKA

"We were looking for a smart software with good support service. We got both from Excellence ICT. Thanks to them."

DR. MAHBUR RAHMAN, MP

MANAGING DIRECTOR | TMC MEDICAL CENTER AND LEAF PHYSIOTHERAPY CENTER

"Excellence ICT is a very efficient and hard-working team. We are using their software since 2018 and quite happy with their service. Good luck to them."

DR. MD. ALI KHAN

HEAD OF DEPARTMENT, HAEMATOLOGY | SHER-E-BANGLA MEDICAL COLLEGE & HOSPITAL, SARISHAL

"As a part of digital transformation of our hospital, we built our website for department of Haematology by Excellence ICT. They did a great job! We highly recommend them."

SHAMEEM MAZUMDER

IN-CHARGE | PATHOLOGY DEPT., CMG, GUMILLA

"We have to manage more than 1200 patients daily in our 6 collection booths in peak season. QueueMate helps us to make the queue disciplined and save time."
